

Your trusted advisor across  
**digital transformation.**

We are more than just an IT provider.  
We are a powerhouse that seamlessly  
combines **IT consulting, systems  
integration** and **IT distribution** under one  
roof.

**We Design. We  
Develop. We Deliver.**

Comprehensive approach to digital transformation that set us apart in the industry

## Systems Integration & DevOps

Integration of critical systems (CRM, ERP, CI/CD) for smooth workflows.

Custom APIs and plugins to bridge platforms effortlessly.

DevOps practices for continuous integration and deployment.

Custom software development to fit your unique business needs.

## IT consulting<sup>01</sup>

*/\* From audit to strategy and implementation \*/*

- Comprehensive IT audits to identify opportunities and inefficiencies.
- Strategic roadmaps for digital transformation.
- Certified training programs to maximize tool adoption and efficiency.
- Actionable improvement plans based on deep analysis of your IT landscape.

## Robust competencies in server and engineering infrastructure<sup>02</sup>

- Extensive experience working with data centers.
- Designing and implementing scalable solutions that optimize performance and reliability.

## Software & Hardware distribution<sup>03</sup>

- End-to-end distribution services: from pre-sales consulting to post-sales support, project supervision to full execution.
- Official partnerships with global vendors: NVIDIA, Atlassian, Microsoft, Amazon, Supermicro and others.
- Logistics and financial services to implement large-scale projects.

#### **NVIDIA** Technology Partner:

AI-driven solutions to enhance decision-making, automate tasks, and optimize resource allocation.

#### **Atlassian** Solution Partner:

Effective deployment and customization of Atlassian tools for complex IT environments.

#### **Microsoft, Google, Amazon:**

Expertise in integrating cloud and on-premise solutions for scalable infrastructure.

# WE **TACKLE** YOUR CHALLENGES

Lack of in-house IT expertise

Complex software and hardware integration

Efficient management of digital transformation

Reliable supply chain

Trust us to handle your  
projects with **Agility**,  
**Professionalism** and **Dedication**
